(F) Clarifications issued by the Board / Ministry:

Mining service- Scope[section 65(105)(zzzy)]- Presently, geological, geophysical or other prospecting, surface or sub-surface surveying or map-making services relating to location or exploration of deposits of minerals, oil or gas are leviable to service tax under "survey and exploration of mineral service' [section 65(105)(zzv)] services such as-

- . site formation and clearance, and excavation and earth moving, drilling wells for production/ exploitation of hydrocarbons (development drilling)
- . well testing and analysis services

- . Sub-contracted services such as deploying workers and machinery for extraction/ breaking of rocks into stones, sieving, grading etc.
- . outsourced services

provided for mining are individually classified under the appropriate taxable service. Services provided in relation to mining of mineral, oil and gas are comprehensively covered under this proposed service. With this, services provided in relation to both exploration and exploitation of mineral, oil or gas will be comprehensively brought under the service tax net.

The trend is to outsource part or whole of the mining activities. Since exploration and mining of mineral, oil or gas are comprehensively brought under the service tax, field formations may undertake necessary action.

[Vide M.F. (D.R.) Letter D.O.F.No.334/1/2007-TRU, dated 28.2.2007-2007 (5) S.T.R.(C27)].

Mining Service- Applicability of Service Tax on activities undertaken in mining sector before 1-6-2007-

Vide appropriate entry in the Finance Act, 2007, 'service provided by any person to any person in relation to mining of minerals, oil or gas' has been comprehensively brought under the ambit of service tax with effect from 1.6.2007. However, for the prior period, certain disputes relating to chargeability of service tax on some of the services provided to mining sector were reported. In this regard, a draft circular dated 9.10.06 was put up on the official web-site, soliciting response from the stakeholders. The responses received have since been examined.

2. The mining sector (such as the coal mines, mining of ores, etc.) mainly receive the following types of services, mostly on contract basis:-

- (i) Excavation/ drilling and removal of the overburdens (i.e. stratum, layer of mud, boulders, etc., that needs to be removed during or prior to extraction of coal/ minerals).
- (ii) Coal cutting or mineral extraction and lifting them up to the pithead.
- (iii) Handling and transportation of coal/ mineral from pithead to a specified location within the mine/ factory or for transportation outside the mines.

3. Excavation/ drilling and removal of the overburdens:

These activities are essentially in the nature of site formation, clearance, excavation and earth-moving. As clarified earlier vide circular B1/6/2005-TRU, dated 27.7.2005 (para 6.2) [2007 (1) S.T.R. C48], the definition of site formation and clearance, excavation and earth-moving and demolition service is an inclusive definition and activities specifically mentioned are indicative and not exhaustive. Prior to construction of buildings, factory or any civil structure, activity of mining or clearance, excavation and earth-moving or levelling are normally undertaken for a consideration to make the land suitable for such activities. Such services include blasting and rock removal work, clearance or underground, drilling and boring, overburden removal and other development and preparation services of mineral properties and site, and other similar excavating and earth-moving services. Hence, these activities are taxable under the category of site formation and clearance, excavation and earth-moving and demolition services w.e.f. 16.6.2005.

4. Coal cutting or mineral extraction and lifting them up to the pithead:

These activities are essential integral processes and are part of mining operations. As stated earlier, mining activity has been made taxable by legislation under the Finance Act, 2007 (w.e.f. 1.6.2007). Prior to this date, such activities, being part of mining operations itself are not subjected to service tax. Therefore, no service tax is leviable on such activities prior to the said date.

5. Handling and transportation of coal/mineral from pithead to a specified location within the mine/factory or for transportation outside the mine:

These activities are post-mining activities and are chargeable to service tax under the relevant taxable services, i.e. "Cargo Handling service" and "Goods Transport by Road". However, in case, such transportation is undertaken by mechanical systems, such as conveyor belt system, ropeway system, merry-go-round systems etc., and the same is not transported by road, no service tax would be chargeable. Service tax, is however, chargeable under cargo handling service, even if the loading, unloading and similar activities are done using mechanical systems.

6. The above are the general guidelines for settlement of pending disputes. These should be applied to individual cases keeping in view the facts and circumstances of each case.
